

Infobip Shift 2026 · Zadar · Main Stage

The Agentic Developer

Hire bots. Book swimming. Ship the site. Keep the skill.

Tue 15 Sep 2026 · Zadar

Hi, I'm

Debbie O'Brien

Independent Developer Educator

I build agent workflows for real life and real work.
And I tell the honest version of what ships.

debbie.codes

THE ASK

**"Book swimming for the boys
during Infobip Shift."**

Not a test script. Not a PR loop.
Real stay in Zadar. Baby Goldfish at Diadora.

Then → now

Same tools. Different job.

SHIFT 2025

Agentic testing

Playwright + MCP. An LLM opens a real browser, writes tests, heals them, even shops in a demo.

SHIFT 2026

Agentic developer

A village of bots. They research, hand off, book swimming, ship the site, and save skills.

Last year felt like the breakthrough. This year I'm living with it.

the village

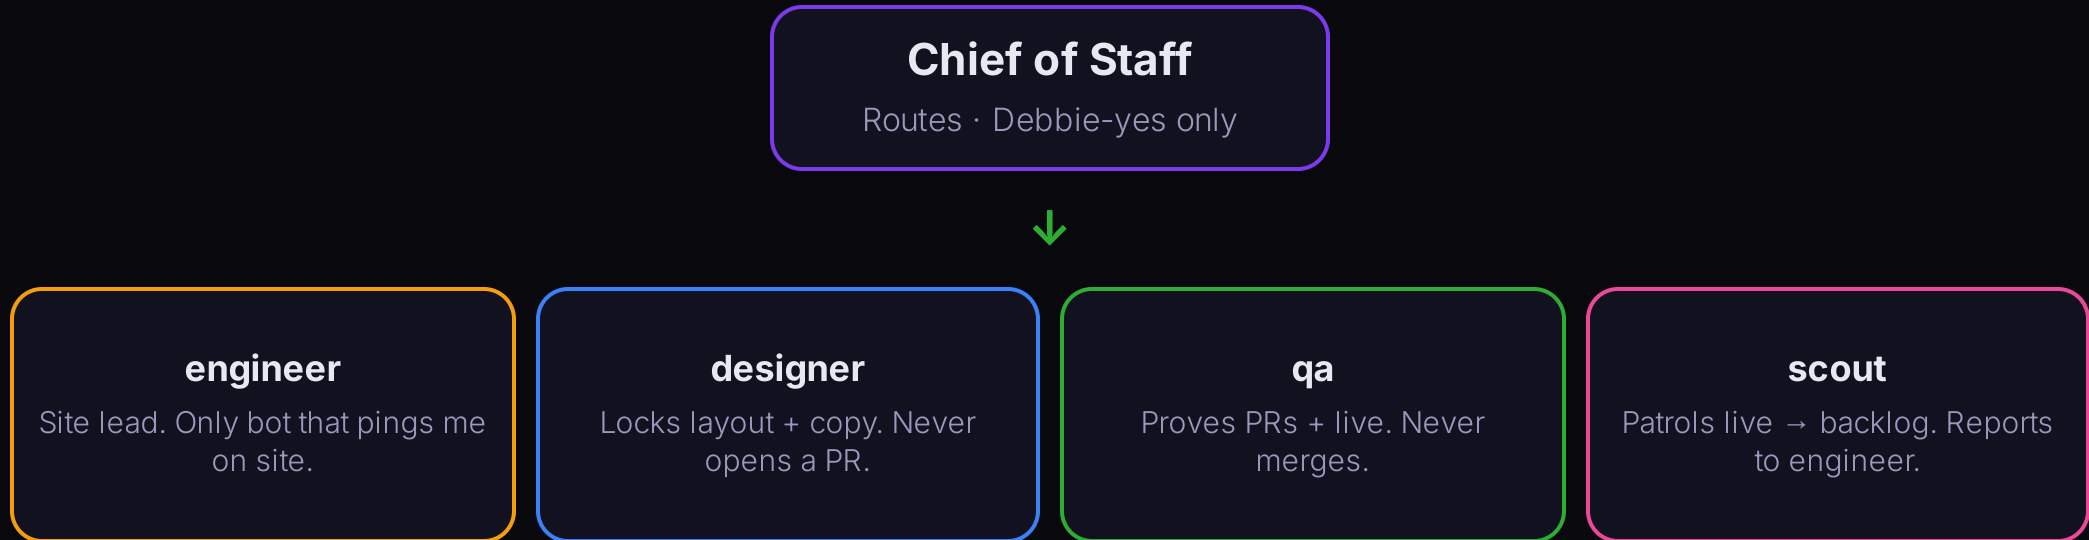

Not one mega-agent. Bots with one clear job each.

Chief of Staff routes. Everyone else stays scoped.

Same idea as hiring a small eng org.

I didn't build one mega-bot. I hired a team.

Work org first. Hard edges. Like a tiny eng company.

Same pattern outside code: publish bot runs Screen Studio → thumbs → YouTube → ship.
Nothing public without CoS yes.

village at work

Proof: /videos browse

Hired a team. Here's what they shipped.

scout · design

Before: flat /videos dump. Hard to find
Playwright vs agents vs Grok.

Locked path: Featured → chips →
Latest.

engineer

Shipped the path on debbie.codes.
Featured strip. One-tap filters: All ·
Playwright · MCP · Agents · Nuxt · Grok
Bot.

qa · after

Live prove. Playwright MCP Servers
Explained is findable.

demo arc

Swim booking · four beats

Intent → eyes → decision → watch. Human gates stay human.

1 · Intent

Book Baby Goldfish.
Prefer ~09:30. Parents in
pool. €0.

2 · Eyes

Travel + stage on live
Turneo. Cookie banner.
Real slots.

3 · Gate

I pick the slot. Room
number via CoS. Don't
invent refs.

4 · Watch

Travel owns booking. Mid-
week mornings as they
unlock.

travel agent · findings

Free slots with live Turneo shots · no double-book

Debbie O'Brien

travel agent bot

Calendar had ladera; Debbie's right — it's Family Hotel Diadora, Sat 12–Sat 19. Same Punta Skala resort, different building. I corrected the calendar note and pointed stage at Falky Swim there. No booking changes.

6 messages with stage

Peeking live Turneo for Baby Goldfish slots 12–19 Sep — I'll ping stage (and you if useful) when the open times are in. No booking.

NEW

3 messages with stage

Turneo has free Baby Goldfish on Sat 12 and Sun 13 Sep at 09:30 (also 14:00). Later dates in the stay still grey on the calendar. Passed to stage — no booking until you pick.

6 messages with stage

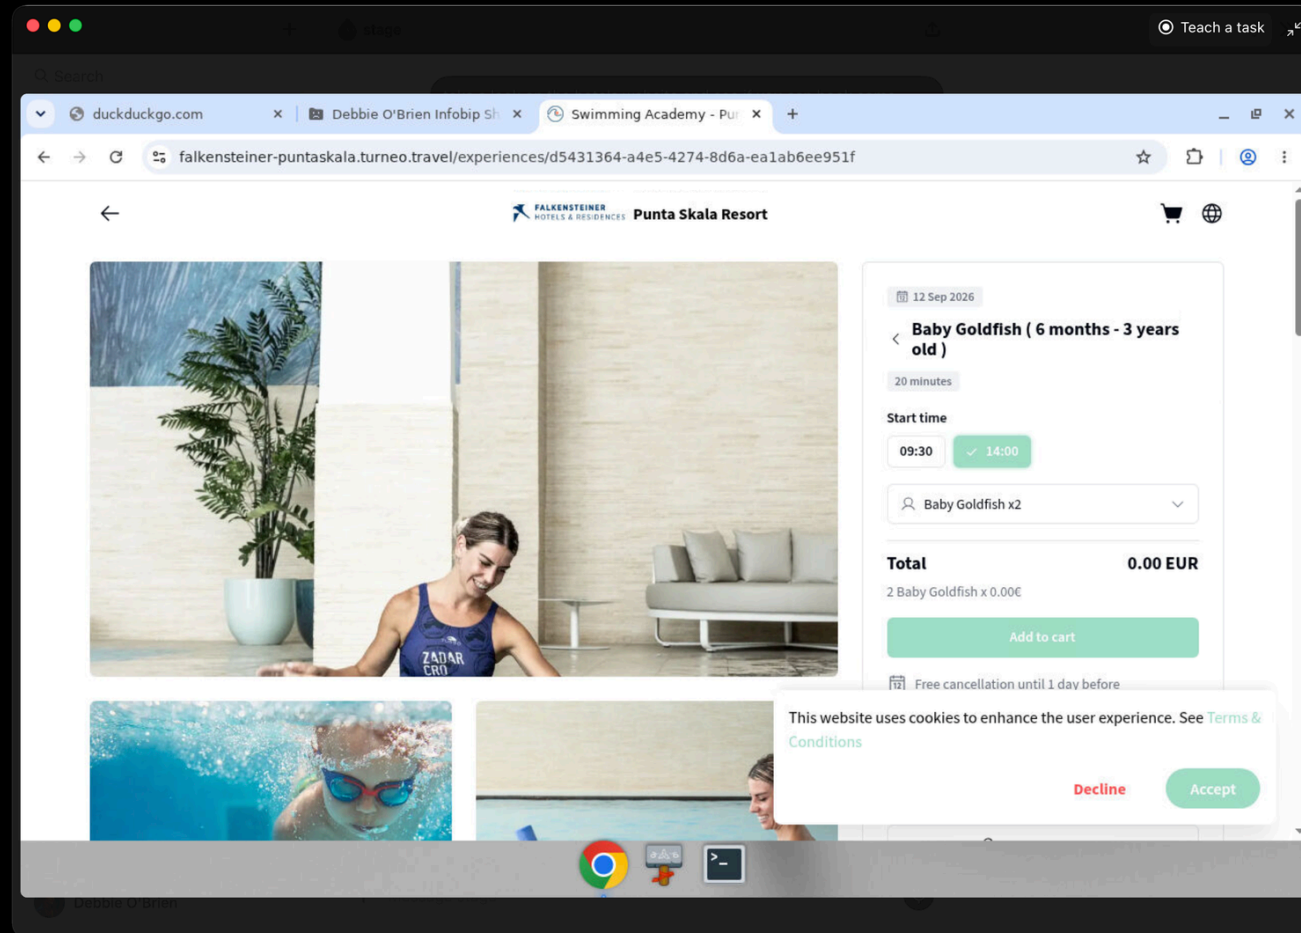

Scouting other Turneo family/toddler activities for Diadora 12–19 Sep (research only). Sun 13 Goldfish stays with stage — I won't double-book.

Eyes on Turneo

Baby Goldfish · 09:30 vs 14:00 · cookie banner friction

stage ↔ travel · live

Chat + live screen · prefer 09:30 · book without a room number

The image displays a Slack workspace on the left and a web browser on the right. The Slack workspace is titled "stage" and shows a list of channels on the left sidebar, including "Publish", "youtube bot", "x bot", "video editor", "work", "engineer", "debbie.codes", "designer", "qa", "dr eggbot", "site scout", "Marketplace", and "Debbie O'Brien". The main chat area shows a conversation with "travel agent bot" with messages about booking slots and routines. The web browser on the right shows a booking interface with a "Create Routine" button.

Slack Chat Messages:

- On it — opening Diadora's site for Falky swim slots and whether guests can book online.
- Site's up — hunting the swim booking flow now (Happy Kiddos weekends run through early Nov).
- Digging the Diadora site for bookable Falky swim slots for 12–19 Sep — I'll come back with what's open (and won't hit submit until you pick).
- Message from travel agent bot
- Found the channel from last year: Turneo → Swimming Academy → Baby Goldfish (free). Checking live slots for 12–19 Sep now.
- Messaged travel agent bot
- Same setup as Shift 2025 should still fit the boys (Baby Goldfish). Back in a bit with open mornings.
- Message from travel agent bot
- if there is preference in time for me it would be morning like 9:30 would be a better option than afternoon
- i dont have a room number yet as havent checked in but we can still book without a room number
- Locked in — prefer ~09:30 mornings, and we can book without a room number. Checking open morning Baby Goldfish slots now.

Web Browser:

stage's screen

Routines are recurring tasks this Bot runs on a schedule.

Create Routine

Slot picker

I pick. The agent doesn't guess the consequential slot.

The screenshot shows a Slack workspace with a sidebar on the left and a main chat area on the right. The sidebar lists several channels and users, including 'stage' (8:23 PM), 'engineer', 'debbie.codes', 'designer', 'qa', 'dr eggbot', 'site scout', 'Marketplace', and 'Debbie O'Brien'. The main chat area shows a conversation with the 'stage' bot. The bot has sent a message about booking Baby Goldfish slots, listing six options (A-F). A user has responded with a message: 'lets do sun 13 9:30 and book it'. The bot has then sent a confirmation message: 'Booking Sun 13 Sep 09:30 Baby Goldfish for both boys — free Turneo slot, no room number.' The chat area also shows a search bar at the top, a 'More unread' button, and a 'Message stage' button at the bottom.

Marketplace

Debbie O'Brien

stage

Same as last year: Baby Goldfish (6 mo–3 yr), parent. 11 new messages, book 2 for Marc & Logan, €0.

I won't submit until you pick.

Messaged travel agent bot

Which Baby Goldfish slots should I book?

€0 Baby Goldfish x2. Parents in pool. Later weekdays may open closer to the stay.

A Sat 12 Sep 09:30

B Sun 13 Sep 09:30

C Sat 12 Sep 14:00

D Sun 13 Sep 14:00

E Both 09:30 mornings

F Hold — check mid-week later

Type your own answer

lets do sun 13 9:30 and book it

Booking Sun 13 Sep 09:30 Baby Goldfish for both boys — free Turneo slot, no room number.

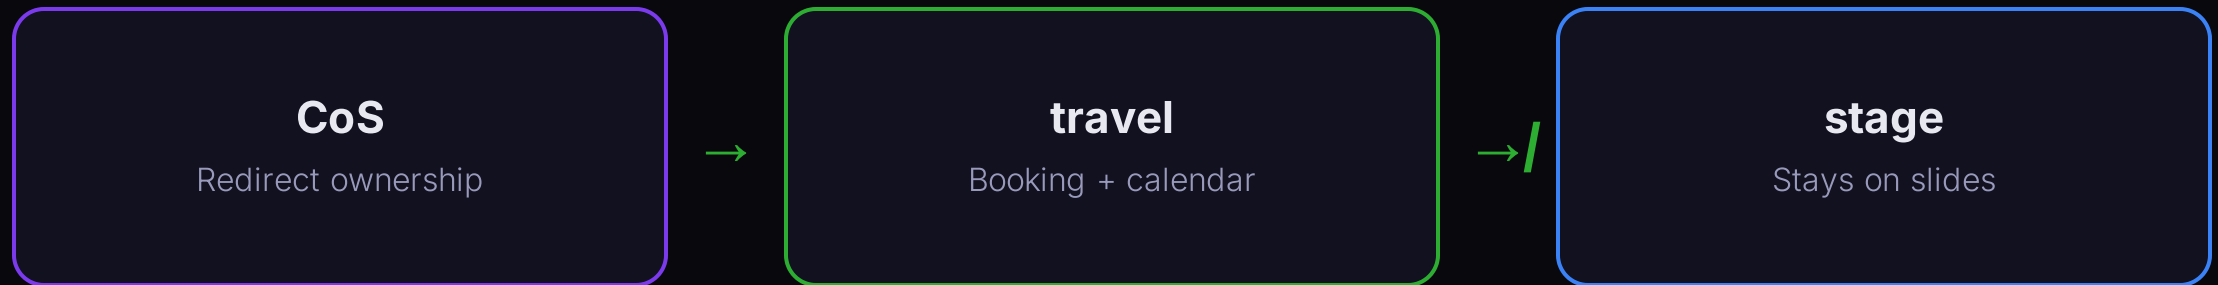

2 messages with travel agent bot

Going through Turneo checkout now.

Message stage

Ownership handoff

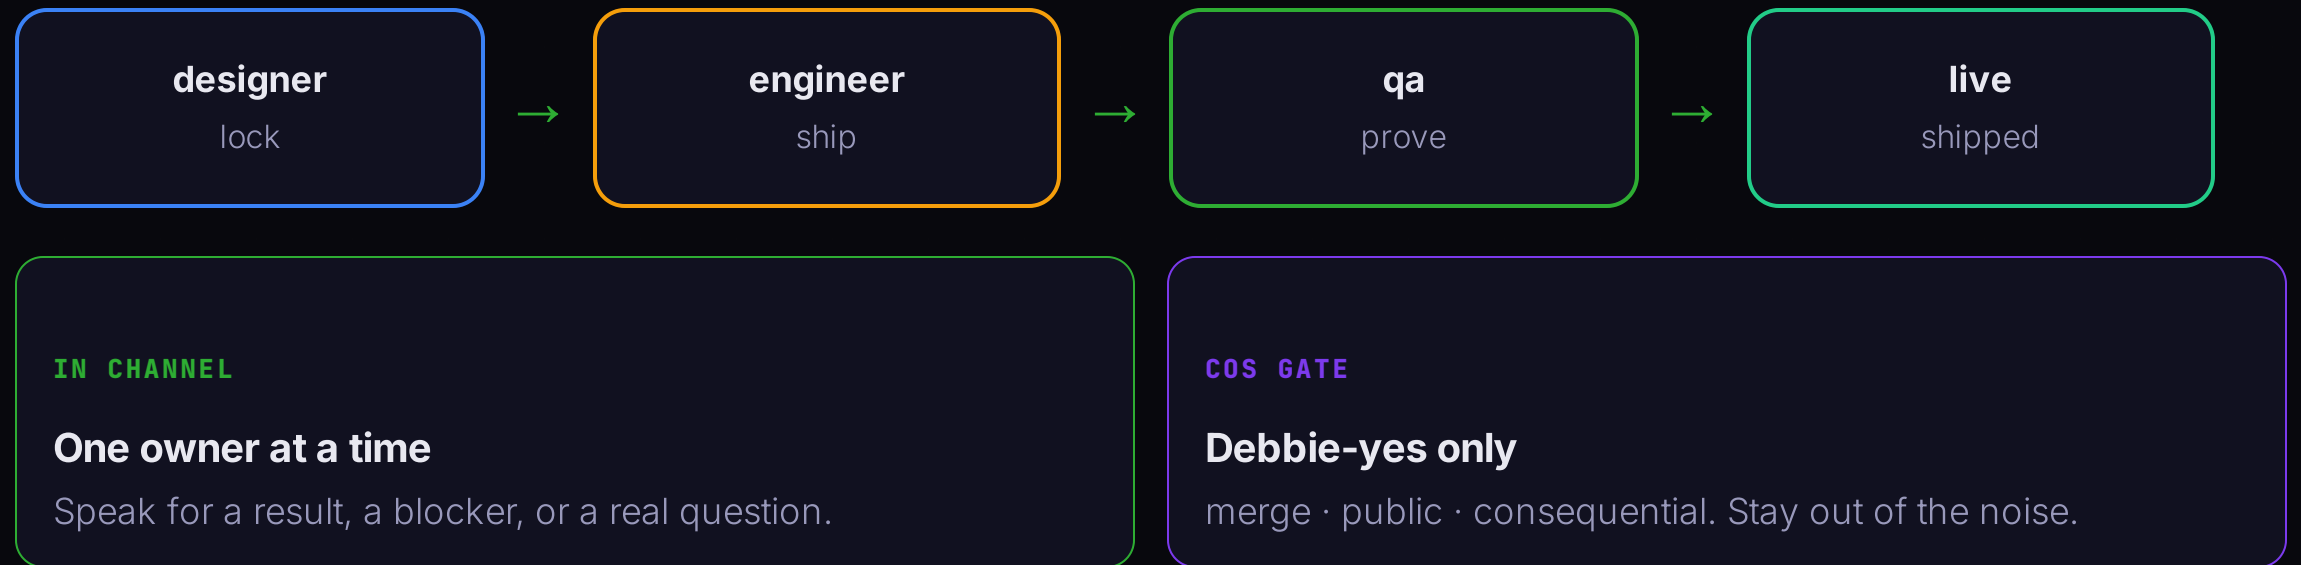

When bots collide, roles matter.

Agentic org design is part of the talk. Not a footnote.

Channel vs CoS

Work stays in-channel. CoS only for Debbie-yes.

Under the hood

Portable ideas. Not a product pitch.

MCP

Eyes and tools

A protocol. Browser, GitHub, calendar. How agents reach the world.

SKILLS

Reusable recipes

Markdown playbooks agents load. Do this, then that, stop here.

PLUGINS

Packaged bundles

Skills + connectors together. A plugin can ship several skills and an MCP server.

skills arc

Hard buy first. Then keep the playbook.

Aug 18 · decathlon.es · home · PayPal chaos

Skill written after (~28 Aug): **decathlon-checkout**

"ok hand it off to me if needed or just click paypal button"

Do it once. Keep the skill.

Friction first. Then save the skill. PayPal stays mine.

1 · Do

Hard buy once

2 · Friction

Tabs · home · PayPal

3 · Save the skill

After · decathlon-checkout

4 · Reuse the skill

Same playbook next time

Takeaways

01

Hire bots with hard edges

Not one mega-agent. Each bot gets one clear job.

02

You gate money, merge, identity

Slot · room · PayPal · public. Ask. Don't invent.

03

After a hard win, keep the skill

Do it once. Save the skill. Reuse it next time.

MONDAY

Starter

Pick one clear job. One hard win. Save a skill.
Gate money and merge.

Thank you.

Hire one bot this week. Give it one clear job.
